

Meare Village Primary School Pupil Leadership Policy

December 2023

Approved by the Headteacher of Meare Village Primary School

Headteacher: Abi Isherwood

Date: December 2023

Proposed Date of Future Review: December 2024

Vision:

At Meare Primary School, we aim to provide a range of experiences so that children develop into confident, open-minded and self-aware members of society. We aim to create a strong sense of acceptance and belonging in school so that when they leave the school gates they are happy and engaging contributors to their community.

[From the Personal Development Action Plan Jan 2023)

Aims:

- To outline the purpose of pupils' participation in school, and wider, life
- To recognise that pupils have a voice, and have logical perspectives and opinions on issues that matter in the classroom, in the school, and in the community
- To give pupils an active role in influencing decisions about these issues as well as in the implementation of these decisions
- To enable pupils to participate as active young citizens and see their role in shaping their world

There is much evidence to suggest that when pupils engage with pupil leadership programmes that have a positive impact, their capacity for learning increases.

Developing participation and leadership skills

In order to develop a leadership model which builds upon the knowledge and skills of all pupils within the school, pupil leadership takes a number of forms. These include classroom-based practices, whole-school projects and programmes, and the joint leadership of community-based research.

In the classroom:

- Involving pupils in conversations and decisions about classroom rules and behaviours
- Delegating roles to pupils to ensure the smooth management the classroom
- Engaging pupils in conversations and decisions about teaching and learning
- Encouraging pupils to form, develop and share their own opinions about issues and to engage in debate, discussion and analysis of those issues

In the school:

- Involving pupils in the decision-making of the school through participating in the Pupil Leadership Meetings
- Electing pupils to meaningful roles through the Democratic process
- Engaging pupils as members and participants in key school processes such as staff recruitment, premises decisions, whole-school curriculum events and fundraising
- Inviting and enabling pupils to undertake research and consultation about aspects of the school that may need change or improvement

In the community:

- Supporting pupils to develop and implement community-based projects, possibly in partnership with other agencies, to enhance and support learning
- Enabling pupils to engage with local issues, participating in wider meetings that affect their lives and outcomes
